

HINDU KALTHIREDDY

MERN Stack Developer | React.js Developer | Full Stack Developer

Phone: +91 9347123964 | Email: hindureddy958@gmail.com

Location: India (Open to Remote / Hybrid / Relocation)

PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with 4+ years of experience delivering scalable, high-performance web applications for enterprise clients in Finance, Healthcare, and Banking. Deep expertise in React.js, Redux Toolkit, TypeScript, GraphQL (Apollo Client), and Microfrontend Architecture. Hands-on with Node.js, Express.js, MongoDB, AWS, Docker, and Jenkins CI/CD. Proven track record in Agile/Scrum environments with 80%+ test coverage.

KEY ACHIEVEMENTS

- Reduced API response overhead by 30% by migrating REST endpoints to GraphQL (Apollo Client) with efficient, overfetch-free queries.
- Improved Lighthouse performance score by 25% through lazy loading, React.memo, and code-splitting optimizations.
- Achieved 80%+ unit/integration test coverage using Jest and React Testing Library across core modules.
- Led Microfrontend Architecture adoption using Webpack Module Federation, enabling independent team deployments and faster build cycles.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Front-End: React.js, Redux Toolkit, Redux Thunk, Redux Saga, Context API, Tailwind CSS, Bootstrap, Responsive Web Design

Back-End: Node.js, Express.js, REST APIs, GraphQL (Apollo Client), Microservices, JWT Authentication, OAuth2, AJAX

Databases: MongoDB, Mongoose, PostgreSQL, MySQL

AI / LLM: OpenAI API, LangChain, Hugging Face Transformers

RAG / Vector: Pinecone, Weaviate, FAISS, Semantic Search, Document Embeddings

Cloud / DevOps: AWS (EC2, S3, Lambda, API Gateway, IAM), Docker, Jenkins, CI/CD

Testing: Jest, React Testing Library (RTL), Cypress E2E, Mocha, Playwright

Architecture: Microfrontend, Webpack Module Federation, AEM (Adobe Experience Manager)

Tools: Git, GitHub, GitLab, Postman, Webpack, Babel, VS Code, Chrome DevTools

PROFESSIONAL EXPERIENCE

Globus Info Services Pvt. Ltd. | MERN Stack Developer

July 2022 Present

FinBot AI-Powered Personal Finance Management App

Technologies: React.js, Redux Toolkit, TypeScript, GraphQL, Apollo Client, Tailwind CSS, Chart.js, Node.js, Express.js, MongoDB, AEM, Webpack Module Federation

- Architected a full-stack finance platform covering onboarding, transaction ingestion, real-time analytics, and savings goals for thousands of users.
- Built a reusable TypeScript React component library for six developers, reducing runtime errors by about 40%.
- Migrated REST endpoints to GraphQL, reducing average API payload size by about 30%.
- Implemented normalized Redux Toolkit state and Context API, reducing unnecessary re-renders by about 35% across 30+ components.
- Created real-time Chart.js dashboards; improved Lighthouse score by about 25% and reduced initial bundle size by about 20% using React performance optimizations and code splitting.
- Introduced Module Federation for three feature teams, integrated AEM content workflows, and delivered 80%+ Jest and React Testing Library coverage.

Centene Corporation Enterprise Healthcare Member Platform

Technologies: Node.js, Express.js, MongoDB, React.js, Tailwind CSS, AWS (EC2, S3, SES), GraphQL, JWT, OAuth2, Docker, Jenkins, Redis

- Developed a HIPAA-aligned platform for enrollment, provider directories, claims, and benefits.

- Implemented REST and GraphQL APIs with JWT authentication and role-based access control.
- Built accessible React components aligned with WCAG 2.1 AA and managed workflows using Redux Toolkit and Context API.
- Containerized microservices and deployed to AWS EC2; used S3 for documents and SES for notifications.
- Established Jenkins CI/CD, optimized MongoDB schemas and aggregation pipelines, and introduced Redis session caching.

Fifth Third Bank Banking Loan Servicing Platform

Technologies: React.js, Redux, Redux Thunk, Redux Saga, Node.js, Express.js, MongoDB, WebSockets, Jest, Mocha, Cypress, Jenkins, Bootstrap

- Built workflows for loan origination, payment scheduling, account management, and compliance reporting.
- Created accessible loan dashboards and secure REST APIs with JWT authentication and financial transaction audit logging.
- Implemented real-time account notifications and asynchronous loan workflows with Redux Thunk and Redux Saga.
- Established Jest and Mocha unit tests, Cypress end-to-end tests, and staged Jenkins deployments with rollback support.
- Collaborated with product, QA, compliance, and design teams in Agile/Scrum sprints.

EDUCATION

Bachelor of Science (B.Sc.)

Vikrama Simhapuri University, Nellore
Graduated: 2022
